Vedant Sharma

7451006610 | vedantpandit7451006610@gmail.com | LinkedIn | Portfolio | Gurugram

SKILLS

Front-End : Angular, TypeScript, JavaScript, HTML5, CSS3, Bootstrap, Angular Material
Back-End : Node.js, Express.js, Spring Boot
Databases : MongoDB, MySQL, PostgreSQL, Oracle DB
Deployment Tools : Git, Docker, Jenkins, Kubernetes, Argo CD
Other Tools : Apache Kafka, Elasticsearch, MinIO, Redis, Kong (API Gateway), RESTful APIs

EXPERIENCE

Cubastion Consulting Pvt. Ltd. Feb 2023 – Present
Full Stack Developer Gurugram, Haryana

Unnati Insurance Portal (Iffco Tokio General Insurance) – Angular, Spring Boot, Node.js, Oracle DB, Kong

- Designed and developed the end-to-end policy issuance workflow module used by Iffco Tokio agents across PAN India, **replacing legacy peripheral systems and reducing operational costs by over 70%**
- Designed and achieved **RBAC (role-based access control)**, enhancing the security and management of user control actions even on front-end, leading to a major drop in unauthorized attempts and a **90% fortification of data security**
- Invoked a generic **Validation Framework** on back-end, eliminating the use of third-party libraries for validation and parsing API requests across **5+ microservices**

Content Authoring Tool (Staff Selection Commission) – Angular, Node.js, MinIO, Kafka, MongoDB, PostgreSQL, Kong

- Designed and built a **Vault Inbound Interface** that secured authorization, encryption, decryption, and data storage for over **100,000 records**, reducing the risk of data leakage and phishing by **100%**
- Integrated **Kafka** for seamless transfer of data between different consumer microservices
- Implemented an **Object Storage (MinIO)** system to store encrypted images for **500+ assessment questions and options**, improving data security and retrieval speed

xNet (HRMS Portal) – Angular, Node.js, Express.js, MySQL, Elasticsearch, Kafka, OAuth 2.0

- Integrated an **SEO (Search Engine Optimizer)** with **Elasticsearch** based on Apache Lucene, reducing the generic search and data filtration problem of the portal by **75%**
- Developed an innovative **Asset Management Module**, replacing traditional spreadsheet-based tracking with digital lending and auditing of employee assets, yielding a **70% reduction** in time and resource utilization
- Embedded **MSAL (Microsoft Authentication Library)** and role-based access control for user login and secure authentication, leading to a **99% drop** in phishing activity and unauthorized attempts

CLST - Digital Asset Lending Platform (Metaco) – Angular, Node.js, PostgreSQL, Payment Gateway, Kafka, Keycloak

- Simplified role-based user-access authorization using **JWT** and **Google Client APIs**, enhancing system security and achieving a **90% fortification of data security**
- Accomplished a **real-time notification system** on the platform using **Apache Kafka** and **WebSocket** for seamless and efficient communication

EDUCATION

Chandigarh Engineering College, CGC 2023
Bachelor of Technology Percentage: 78.3

Lord Mahavira Academy 2019
Class XII Percentage: 73.2

LEADERSHIP / EXTRACURRICULAR

- Received the prestigious **"Lightning Award"** from stakeholders for delivering phenomenal results within a remarkably short timeframe
- Served as **President of the Pixel Club** (Photography and Cultural Events), leading a team of **30+ members** and organizing numerous successful events and initiatives
- Advocated for social causes, actively participating in charity runs and community welfare programs
- Avid cricket and volleyball player, with strong teamwork and strategic skills both on the field and the court
