SUMMARY

Full Stack Developer with **3.9+ years** building enterprise platforms across insurance, HR, assessment and fintech using **Angular, React, Node.js, Spring Boot** and **MongoDB, PostgreSQL and Oracle**. Experienced in microservices (**Kafka, Kong**), **RxJS** and **NgRx** state management, and **Docker** and **Kubernetes** deployments on **AWS** and on-prem.

SKILLS

Front-End : Angular, RxJS, NgRx, React, TypeScript, JavaScript, HTML5, CSS3, Bootstrap, Angular Material
Back-End : Node.js, Express.js, Spring Boot, RESTful APIs
Databases : MongoDB, MySQL, PostgreSQL, Oracle DB
Cloud & DevOps : AWS, Kubernetes (on-prem), Docker, Jenkins, Argo CD, Git
Other Tools : Apache Kafka, Elasticsearch, MinIO, Redis, Kong (API Gateway)

EXPERIENCE

Cubastion Consulting Pvt. Ltd. Feb 2023 – Present
Full Stack Developer Gurugram, Haryana

Unnati Insurance Portal (Iffco Tokio General Insurance) – Angular, RxJS, Spring Boot, Node.js, Oracle DB, Kong

- Designed and built the end-to-end **policy issuance workflow** used by Iffco Tokio agents across India, **replacing legacy peripheral systems and cutting operational cost by 70%**
- Managed application state with **NgRx** and used **RxJS** operators to debounce user events in the Angular front end
- Implemented **role-based access control (RBAC)** on both the UI (route guards, permission-based components) and the APIs, so users can only view and perform actions allowed for their role
- Built a reusable backend **Validation Framework** that replaced third-party validation and request-parsing libraries across **5+ microservices**

Content Authoring Tool (Staff Selection Commission) – Angular, Node.js, MinIO, Kafka, MongoDB, PostgreSQL, Kong

- Built a **Vault Inbound Interface** handling authorization, encryption, decryption and storage for **100,000+ records**, keeping sensitive assessment content encrypted
- Integrated **Kafka** for asynchronous data transfer between consumer microservices
- Stored encrypted images for **500+ assessment questions and options** in **MinIO**, **improving retrieval time from 5 seconds to nearly 1 second**

xNet (HRMS Portal) – Angular, Node.js, Express.js, MySQL, Elasticsearch, Kafka, OAuth 2.0

- Integrated **Elasticsearch** (Apache Lucene based) for portal-wide search and filtering, cutting search response time and replacing slow generic queries
- Built an **Asset Management module** replacing spreadsheet tracking with digital issuing, returns and audit trails for **1,000+ employee assets**
- Implemented Microsoft sign-in with **MSAL** (OAuth 2.0) and role-based access control for secure employee login

CLST, Digital Asset Lending Platform (Metaco) – Angular, Node.js, PostgreSQL, Kafka, Keycloak, Payment Gateway

- Implemented role-based user authorization using **JWT** and **Google Client APIs**
- Built **real-time notifications** with **Apache Kafka** and **WebSocket**, handling **thousands of events per day**

EDUCATION

Chandigarh Engineering College, CGC 2023
Bachelor of Technology Percentage: 78.3

Lord Mahavira Academy 2019
Class XII Percentage: 73.2

LEADERSHIP AND ACHIEVEMENTS

- Received the **"Lightning Award"** from stakeholders for delivering strong results within a very short timeframe
- Received the **"Soldier Award"** from stakeholders, recognized as the most committed and disciplined employee at Cubastion
